

SE GE - Tanks for generators and heating systems

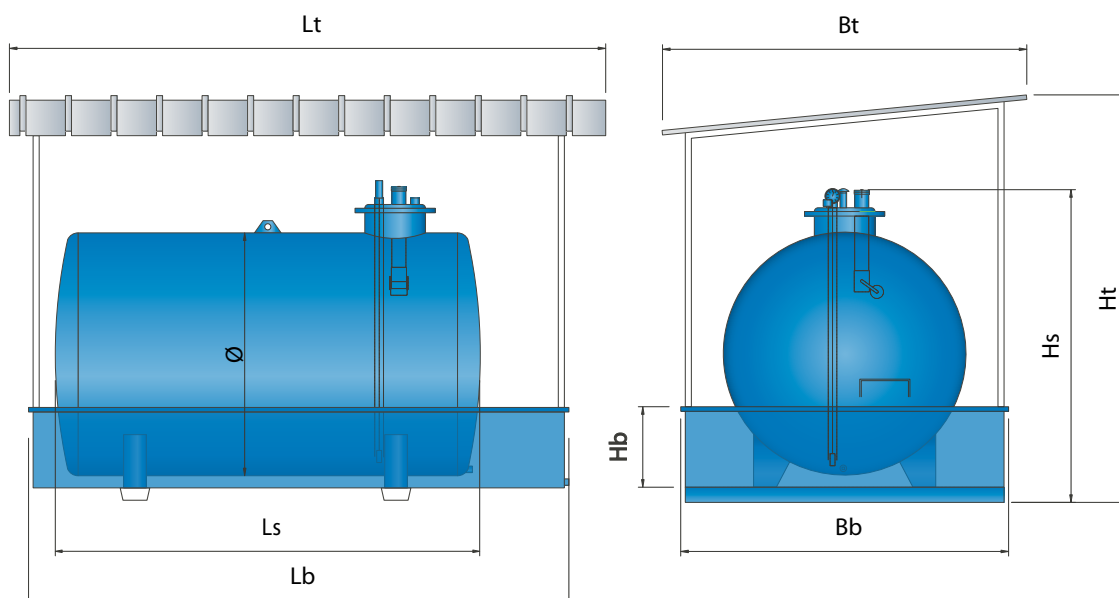

Diesel storage to fueling of generators and heating systems. Containers built in conformity with DPR 1391 of December 22nd 1970 and as requested by the Ministry of Internal Affairs circular number 73 of July 1971.

Standard equipment:

- 420 mm diameter hatch complete with use fittings
- 3" approved charge limiting valve
- 3" approved Charge valve cap with rapid lock and thread
- Analog level indicator
- Set up for aspiration hose
- Approved terminal firebreaker system
- Hatch access foot board (for models SE 5000 GE – SE 7000 GE – SE 9000 GE)
- Total discharge valve
- Containment basin with 50% geometric capacity of the tank
- Set up for mass grounding
- Metal identification tag
- Test certificate
- Comparison table (cm/Lt)

Optional accessories:

- Protection Roof
- OCIO electronic level indicator (see page 212).

TECHNICAL CHARACTERISTICS

Tank	Material:	St 235 Jr
	Internal protective processing:	Rough
	External protective processing:	Anti rust painting and two-component enamel RAL 5015
	Operation (P max. / T max.):	Atmospheric pressure / 25°C
	Warranty:	2 year (construction defects)
