

SMHP - High performance combined buffer store for heat pumps Smartwarm HP

Smartwarm HP is a combined buffer store for primary water with instantaneous production of domestic hot water (DHW) through a high efficiency heat exchanger made of a corrugated stainless steel pipe.

It is available in two options: buffer store + DHW production (SMOHP) and buffer store + DWH production and auxiliary heat exchanger (SM1HP).

The high ratio between exchanging area and store volume, allows Smartwarm HP to deliver a high performance of DHW production even in combination with low temperature sources like the modern hydronic heat pumps Cylinders are also prepared to host a backup immersion heater (not supplied).

HEAT SOURCE

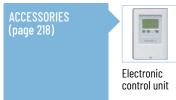

APPLICATION

TECHNICAL FEATURES	
	Primary water buffer vessel
	DHW Heat exchanger
	Auxiliary heat exchanger
	General features

Material	S 235 Jr Carbon steel
Internal protective treatment	None
External protective treatment	Anti rust protection + epoxy painting
Rating (P max. / T max.)	3 bar / 95°C
Material	AISI 316L Stainless steel (1.4404)
Internal protective treatment	Pickling and passivation
External protective treatment	Pickling and passivation
Rating (P max. / T max.)	6 bar / 95°C
Туре	Corrugated pipe
Material	AISI 316L Stainless steel (1.4404)
Internal protective treatment	Pickling and passivation
External protective treatment	Pickling and passivation
Туре	Corrugated pipe
Rating (P max. / T max.)	6 bar / 95°C
Capacity	300 - 400 L
Warranty	5 years
Insulation	Rigid polyurethane foam + PVC: Fire retardant class B3 (DIN 4102)
In compliance with	 Pressure Equipment Directive (PED) 2014/68/UE Art. 4 Para 3 Italian MOH specifications (products suitable to contain potable water) Energy related Products (Erp) Directive 2009/125/CE

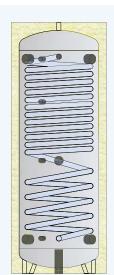

1"1/2 electric immersion heater

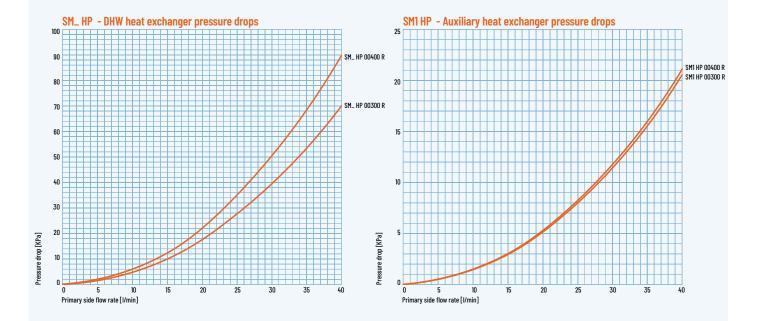

SMOHP - Hard insulation with rigid polyurethane foam and PVC jacket
